I'm attaching comments on on the CSM report in several formats. General comments are provided in a Word file, specific comments through section 9 have been inserted in the CSM Word file using track changes, and specific comments on sections 10-13, which were hand-written, have been scanned into a pdf file. Together the file size is 6MB, so I didn't include everybody on the original distribution list. I am still working on the EMB.
